

Amazon Polly WordPress Plug-In

Give Your Website A Voice - A Life-Like Voice!

WordPress now offers a plug-in that integrates with Amazon Polly to give your website a **real human sounding voice**.

So, what is Amazon Polly you ask?

Amazon Polly is a cloud service that converts text into lifelike speech. There are over 47 voices available, both male and female, and 30 languages. Learn more and hear a live demonstration by following this link:

[Listen to Amazon Polly.](#)

Applications for local governments

- ✓ The text to voice option is a significant advantage in terms of ADA compliance.
- ✓ Providing the option for audio in addition to text gives the user a hands-free option allowing them to multi task, share content in a group setting or just obtain the information they seek audibly if they prefer.
- ✓ Simplifying access to content on your website improves the level of service you can provide for your community and extends the power of your website.
- ✓ If you have a blog on your website or post community news and events, you can give a voice to this content and improve the way you engage with your community.
- ✓ Improve the esthetic quality of your website, not just visually, but also audibly. The robot computer voice is becoming a thing of the past. Bring your website up to date with a voice with personality!
- ✓ On-going applications will continue to be recognized as A.I. intelligence advances to become main-stream and continues to get smarter and smarter. Be on the forefront of this movement!
- ✓ Enable content to be accessible through pod-cast. Staff and citizens can review agendas and minutes while on their evening jog, or on their drive home.

benefits of the
**Amazon Polly
WordPress Plug-In,**
today's new and
advanced
voice to text
technology.*

Amazon Polly WordPress Plug-In Give Your Website A Voice!

Sophistication

Amazon Polly continues to become more sophisticated offering customized features such as whispers, timbre effects and dynamic range compression. Amazon Polly can recognize the proper use of a word in its sentence. For example, it knows how to pronounce the word *live*, whether it be in a sentence such as, “We all strive to *live* meaningful lives”, or “Find a schedule for *live* local events on our blog post”.

Easy to Install

As with all WordPress plug-ins, installation is relatively quick and painless. Our E-Gov team is staffed with experts in WordPress integration and can guide you through the process.
